Dear General Brown Community,

The General Brown Central School District has been informed of two positive cases of COVID-19 affecting Team A students, one at Brownville-Glen Park Elementary School and one at the General Brown Junior/Senior High School. The District has notified parents of children who were identified as potential close contacts.

The District is working collaboratively with Jefferson County Public Health who will be performing the contact tracing process pursuant to their protocols. The contact tracing process identifies anyone who comes into close contact with someone who has COVID-19. The Jefferson County Public Health officials will communicate with any students or staff found to be in close contact with a positive case. Contact tracing slows the spread of COVID-19 and helps protect you, your family, and our community. If Jefferson County Public Health contacts you, please follow their recommendations.

General Brown Central School District's Reopening Plan addresses potential positive cases. The District continues to follow the policies, procedures, and protocols to ensure the health and safety of all students and employees, and will continue to work closely with the Jefferson County Department of Health. Social distancing protocols and disinfecting measures continue to be in place. Additionally, extra cleaning has occurred in the areas frequented by the student.

The District is attempting to be completely transparent; however, privacy laws restrict us from disclosing or confirming any personally identifiable information. Thank you for your understanding.

We appreciate your continued support of our students, staff, and General Brown community, and we will continue to work together to ensure the safety of all as we move forward.

Sincerely,

Barbara J. Case
Superintendent of Schools
