

Home and Careers Cookbook Project

STEPS: What do I need to do?

1. Your task is to create a FAMILY COOKBOOK: a place to house all of your family's favorite recipes.
2. Decide what you will include in your cookbook. What sections will you include? For example, you may decide to include sections on appetizers, soups, main dishes, vegetables and desserts. You must have a minimum of 3 sections (however, you can always have more).
3. Begin to collect recipes for your cookbook from family members as soon as possible. These recipes may be true family recipes that represent your heritage or simply recipes that your family loves to make. Your cookbook should have a minimum of 9 recipes.
4. Type recipes (in google docs, if you can) to ensure that they look professional and have no spelling errors.
5. Pictures of at least 3 of the recipes.
6. 6. Your cookbook should also contain at least 2 other important information sections. For example:
 - a. Kitchen equipment
 - b. Cooking terminology
 - c. Ingredient substitutions
 - d. Shopping List
 - e. Food safety
 - f. Measurement conversion

Questions:

1. What is my Cookbook's TITLE? (3 Potential Ideas)
2. What are my sections (at least 3 different ones) going to be?
3. Who am I going to get my recipes from? (list at least 3 people)
4. What supplementary information am I going to include? (2 sections)

Please answer the following questions or statements in complete sentences.

5. What was your experience making the cookbook.
6. List 3 ways the recipes you've chosen relate to your family/heritage.
7. things you learned while completing this project.
8. Please explain what grade you think you earned and why.
